e) Strengths

Demonstrated expertise in motivating students to work towards achieving their educational goals

f) Weaknesses

Workaholic nature, focused on spending extra hours on researching concepts and taking advantage of online resources

g) Opportunities

As a teacher, we will find there are various opportunities for training and development within the profession. We could choose to specialize in curriculum development and technological advancements for education or the development of new teaching methodologies.

h) Challenges

I think that the main problem is to maintain the interest of the students. Of course, their interest in changing due to technological devices, then we need to use them in reaching more action to the educational activity.

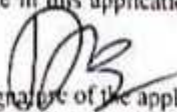

Note: Difficulties and Suggestions with regards to Academic assignments/ Self growth can be given in an Annexure.

a) Strengths

Demonstrated expertise in motivating students to work towards achieving their educational goals

b) Weaknesses

Workaholic nature, focused on spending extra hours on researching concepts and taking advantage of online resources

c) Opportunities

As a teacher, we will find there are various opportunities for training and development within the profession. We could choose to specialize in curriculum development and technological advancements for education or the development of new teaching methodologies.

d) Challenges

I think that the main problem is to maintain the interest of the students. Of course, their interest is changing due to technological devices, then we need to use them in reaching more action to the educational activity.

Note: Difficulties and Suggestions with regards to Academic assignments/ Self growth can be given in an Annexure.
